

# CS 4081 ENTREPRENEURSHIP & HIGH-TECH VENTURE CREATION

## INTRODUCTION TO ENTREPRENEURSHIP

Prof. Donal O'Mahony

[Donal.OMahony@cs.tcd.ie](mailto:Donal.OMahony@cs.tcd.ie)

# (My) Course Objectives

- ▣ To deliver an informative and compelling course
- ▣ To give students a deep appreciation for the current and potential role of *high-tech* entrepreneurship in Ireland
- ▣ To equip students with the knowledge on how the *high-tech* entrepreneurial process works
- ▣ To inspire students to work with/for *high tech* startups (*Straw Poll*)
- ▣ To perhaps inspire one or more students to start up a company over the course of their career
- ▣ High-Tech Business 101

# Credit

- Considering...
  - ▣ This is a core course for 4<sup>th</sup> Year Computer Science/MSISS
  - ▣ Assessment by Examination is inappropriate
  - ▣ My role is more to engage rather than to grade
- Marks for the course will be entirely by continuous assessment
  - ▣ A roll will be kept (2 Lectures + 1 Talk Slot)
  - ▣ Individual Exercises
  - ▣ Team Exercises

# Course Topics

- ▣ 1. Introduction to Entrepreneurship
- ▣ 2. Opportunity Recognition
- ▣ 3. Feasibility Analysis
- ▣ 4. Elements of a Business Plan
- ▣ 5. Making the Pitch
- ▣ 6. Forming the team
- ▣ 7. Company Forms & Raising Finance
- ▣ 8. Marketing & Promotion
- ▣ 9. Protecting Intellectual Property
- ▣ 10. Overflow

# Ireland : Entrepreneurship, 2016

## WHO ARE THEY?

### EDUCATION

71% HAVE POST SECONDARY EDUCATION

### AGE

### RESOURCES (HOUSEHOLD INCOME)

### GENDER

## MOTIVES

## START-UP TEAMS

## SECTORS

## JOBS IMPACT

**70%** WILL BE AN EMPLOYER WITHIN 3 1/2 YEARS OF STARTING

## JOBS EXPECTATIONS

**39%** EXPECT TO HAVE 10+ JOBS IN 5 YEARS

## INTERNATIONAL ORIENTATION

## PLACE OF BIRTH AND CURRENT RESIDENCE

4 IN 10 BORN OUTSIDE IRELAND

REGION OF RESIDENCE

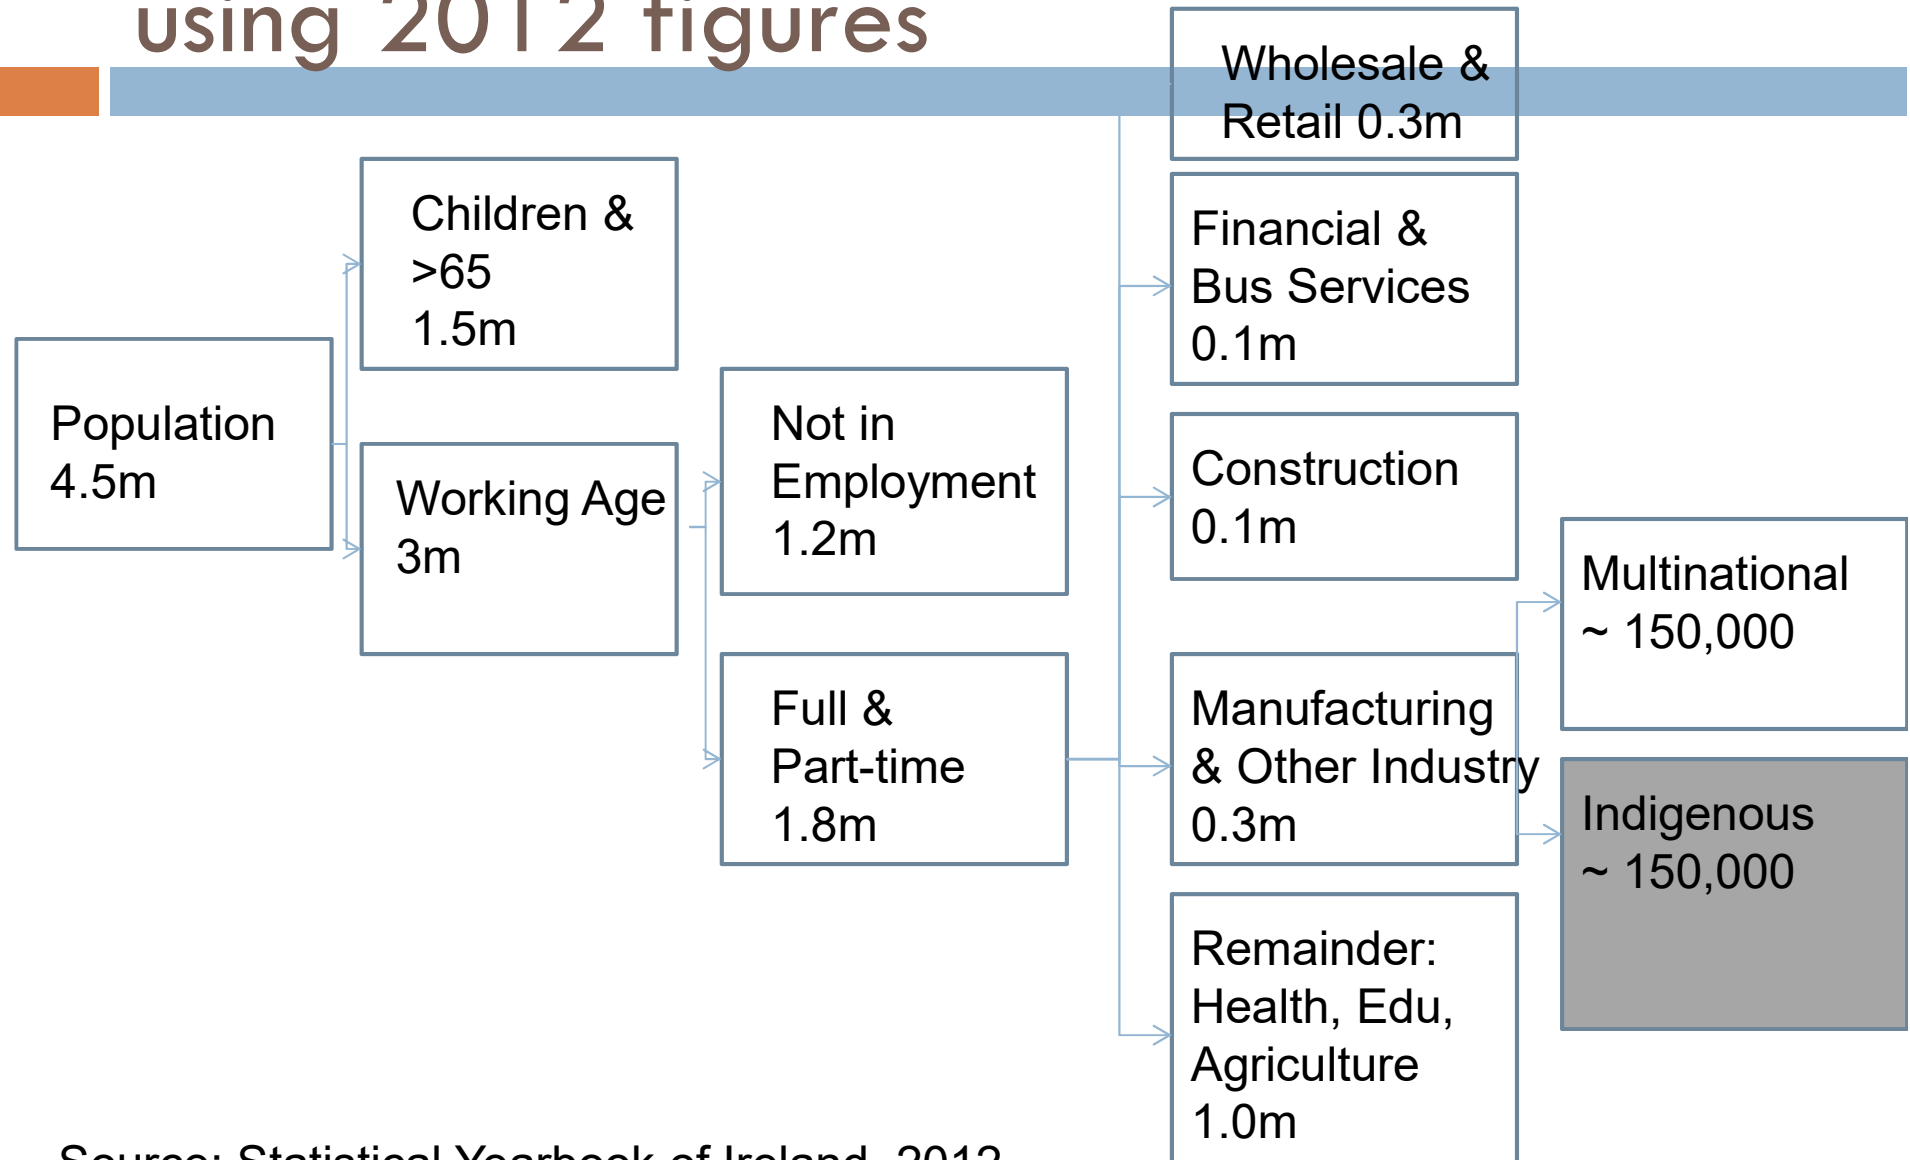

HOW IMPORTANT IS THE  
HIGH-TECH SECTOR IN  
IRELAND?

# The Irish Economy – at a Glance

## using 2012 figures

Source: Statistical Yearbook of Ireland, 2012

# IRELAND'S STRATEGY FOR HIGH-TECH & ENTREPRENEURSHIP IS IT WORKING?

# Ireland and the Smart Economy

- Ireland like many countries is trying to create a ‘Silicon Valley’ type of environment
- Some ingredients
  - ▣ Big emphasis on science and maths at schools
  - ▣ Entrepreneurship training for all
  - ▣ High quality undergraduate education in Science & Engineering
  - ▣ Doubling the number of PhDs
  - ▣ IDA focus on research-based jobs
  - ▣ Attend to Entrepreneurial eco-system: Mentors, Role models, Seed capital, VC availability, friendly tax laws

# Advice from a Guru

- Daniel Isenberg, Director of Babson Entrepreneurship Ecosystem Project  
HBR article [2010] entitled “How to Start an Entrepreneurial Revolution in 6 months”
- Revolutions .....start local
- ..need participants ... require resources...need revolutionaries ... Need a call to action... Need an inner council...need leadership
- <http://www.youtube.com/watch?v=IGXsFS5t5Vg> (2 minutes)

# High Tech Job Creation

## □ IDA

- In 2017, created 19,851 jobs, net increase 10,674

- (2016 Investments include: Oracle, First Data, Credit Suisse, hubspot, Amaon...)

- Target for period 2015-2019 is 80,000 jobs created

## □ Enterprise Ireland

- In 2017, created (19,705) jobs, net increase of 10,309

- Total number in employment: 209,338

- Venture Investments €994m in ~221 firms in 2017,(ivca.ie) €12.8m angel inv in 45 firms

# Entrepreneurship Stats

- Enterprise Ireland – 91 new High Potential Start-up companies in 2016

# Point of Comparison – Israel

- Population 7.5m
- In 2007
  - Invests 4% of GDP on R&D (Ireland: 1.57%)
  - 100 Israeli companies listed on the NASDAQ
  - 80% in High Technology
  - 20% of the population are University Graduates
  - 84 Venture Capital Funds operating (Ireland: 31)
  - 462 companies raised \$1.76bn in VC (Ireland: approx 20 companies raising €226m)

- 1<sup>st</sup> 4 mins of

# A Contrarian View

- Not everyone believes in the “knowledge economy” and the concept of “innovating our way out of recession”
- Example: [www.finfacts-blog.com](http://www.finfacts-blog.com) – [a news website run by Michael Heneghan] – some points
  - ▣ Too much money being spent on research & high-tech
  - ▣ No jobs will come from it
  - ▣ Idea of university-spinouts from Silicon Valley is over-hyped – mostly small companies that did not employ many people
  - ▣ Israel succeeded because of Russian immigrants
  - ▣ Should spend our money on agriculture & tourism

# Key points

- The High-Tech Sector in Ireland is small, but more impactful than you might think
  - ▣ Dominated by the multi-national sector
  - ▣ Doubling the Indigenous Sector would have a huge impact
- Ireland is depending on the Knowledge Economy to deliver future prosperity
  - ▣ So are many others
  - ▣ Ireland lags many of the leading countries in some key aspects

# Key Points...

- High Tech Venture Creation is a key part of the knowledge economy
- There is no manual on how to do this

# Team Assignment #1

- Form teams of 4/5 students [ Visiting Students will be added to teams]
- Select a Irish or UK startup company from anytime over the last 10 years
  - Try to pick one that is sufficiently mature
    - Not one that has just won a pitching competition
    - DISCUSS IT AMONG YOUR TEAMS
- Prepare a short (4 minute) presentation on the company showing:
  - Gap in the market
  - Team – how did it change over time
  - Money- how much was invested, when
  - What was the plan for Exit?
  - Why was this company (un)successful
  - Submit team members and company to me by e-mail by monday
  - Startups on Enterprise Ireland: “Seed and Venture Capital Report” or IVCA.IE Venture Pulse
